Your business is only limited by the product you can access. Most repackagers simply cannot readily order the product they would like. **We can change all of that!** Pharma Group was born out of the need of independent pharmacies to operate in a more profitable and compliant manner. From our first retail pharmacy that was established in 1993, to our latest specialty pharmacy that utilizes the latest in compliance packaging, Pharma Group will offer you a level of product access like you've never had before!
